HOW TO MEASURE

CHEST
Measure just under arms and across shoulder blades holding the tape firm and level. If your chest falls between sizes, order the next size up.

NATURAL WAIST
Bend side to side and find the natural bend in your body, this is your natural waist. Note: It may not be the smallest point.

HIP/SEAT
Measure the fullest point between your natural waist and crotch.

INSEAM
Measure from your crotch to the desired length on body. You may also measure pants that you currently own and like.
